EMPEROR LEAVES FOR EASTERN FIELD?

Paris, Sept. 16.—A dispatch to
the Petit Journal says that Em-
peror William of Germany will
proceed to East Prussia to as-
sume chief command against the
Russian invasion.

RUSSIANS CROSS RIVER SAN IN ADVANCE

Petrograd, Sept. 16.—A semi-offi-
cial summary of the recent fighting in
Galicia says that the Austrians are
being pursued and that the Russians
have crossed the River San.

Heavy Austrian Losses.

The Austrian losses are estimated
at 250,000 killed and wounded and
about 100,000 prisoners and four hun-
dred pieces of ordnance; and the re-
port further says that the roads in all
directions are crowded with artillery,
transport wagons and ammunition
trains.

Germans Captured.

Five thousand Germans and thirty-
six pieces of long range German ar-
tillery were captured at Turoosine,
while several dozen large German
guns were taken at other points.

Succor Failed.

The Germans sent to succor the
Austrians suffered a heavy defeat, ac-
cording to this report.

RUSSIAN ARMIES JOIN FORCES AT RZEWOW

London, Sept. 16.—Rome dispatches
say that the Russian armies com-
manded by Generals Danki and Auf-
enberg have joined forces at Rzewow
thirty miles north of Przyls, and
that in this operation they lost forty
per cent of their numbers.

SAY SERBS HAVE BEEN WHIPPED BADLY.

Vienna, Sept. 16.—via London.—
General Hoeffler announced today
that Szerm in Slavonic Hungary and
the River Save into Hungary had
been defeated all along the line, and
that Szerm in Slavonic Hungary and
Banat were clear of the enemy.

Berlin (by wireless) to Sayville, L.
I., Sept. 16.—General Hindenberg has
telegraphed the emperor that the Vil-
na army of the second, third, fourth
and twentieth army corps, two reserve
divisions and five cavalry divisions
have completely defeated the Rus-
sians with heavy casualties. The num-
ber of prisoners is increasing. The
destruction of the army continues and
the spoils of war are enormous.

The Russian army defeated at Lyck
comprised in addition to the Twenty-
second corps a remnant of the Sixth
corps and parts of the Third Siberian
corps. Headquarters announces at
midnight that the heavy fighting in
France is yet undecided. The French
assault has been repulsed.

"Take Berlin at Any Cost."

Petrograd, Sept. 16.—That the pro-
posed invasion of Hungary by a
strong Russian body has been definite-
ly abandoned was intimated here.
It is realized by the Russian general
staff that the German resistance will
be very strong and it has been defi-
nitely decided that the entire Russian
field army, first and second line troops,
will be retained for the capture of
Berlin.

The czar is determined that Berlin
shall be taken, if it costs the Russian
empire its entire fighting strength.
Discussing the general situation to-
day, Minister of War Sukhomlinoff de-
clared:

"The Russian army is going to cap-
ture Berlin. That is the task as-
signed to it by the allies in the pres-
ent war. The entire strength of the
Russians will be used to this purpose.

Austrians Out of Way.
"We have been compelled to remove
the Austrians as a source of danger,
but we have not planned any general
invasion of Hungary or any attempt
to take either Budapest or Vienna."

"The Austrian army is crushed. Its
losses in killed, wounded and prison-
ers exceed 250,000. They have lost

HAD LARGEST FIRST DAYS ATTENDANCE

FAIR WEATHER WILL MAKE LEE
COUNTY FAIR "THE BEST
EVER."

BABY CONTEST YESTERDAY

Many Pretty Little Ones Were in
Competition—Some Excellent
Displays.

The largest opening day atten-
dance in the history of the Lee coun-
ty fair association marked the com-
mencement of the 1914 fair at Am-
boy Tuesday; and with favorable
weather conditions the rest of the
week the attendance will in all prob-
ability set a new mark this year, for
reports from Amboy today are to the
effect that there is an exceptionally
large attendance and that the track
is in excellent condition.

Children's Day.

Tuesday was Children's day at the
fair and thousands of children were
the guests of the association, while
the attendance of adults was larger
than on the first day of any previous
year. The educational exhibit es-
pecially attracted attention. The
display of school work is larger than
every before and its arrangement is
such as to permit its being studied
in a most advantageous manner. The
exhibit is a credit to the schools, the
pupils and teachers of the county and
to the committee in charge of it.

Baby Contest.

Another feature of Tuesday's fes-
tivities was the baby contest, many
mothers entering their children in
the beauty competition. Prizes
were awarded by the committee as
follows:

First prize—Six months' old baby
of Mrs. Oliver Moon, Tampico.
Second prize—Eleven months' old
child of Mrs. McCauley, Plattsville,
Wis.

Third prize—Seven months' old
child of Mrs. Liston, Amboy.

Many Concessions.

Visitors at the fair were impressed
by the exceptionally large number
of concessions there are this year,
the "Midway" being larger and more
varied than ever before. Both sides
of the street from the barns to a
point near the pavilion are lined
with tents, booths, etc., while the dis-
plays of poultry, stock, implements,
etc., warrant the rosy prediction
which had been made by the officials
of the association.

DIXON WOMAN ASKS COURT FOR DIVORCE

MRS. LILLIAN M. SPELL ASKS LE-
GAL SEPARATION FROM
HER HUSBAND.

Through Attorneys Brooks &
Brooks, Mrs. Lillian M. Spell of this
city has filed suit for divorce from
her husband, Fred Spell, to whom
she was married June 25, 1902. In
her declaration she alleges that her
husband is guilty of repeated and ex-
treme cruelty and that he has failed
to properly provide for her and their
only daughter, Mabel aged 7, of whom
she asks the custody.

At her prayer Judge Farrand has
issued an injunction restraining Spell
from taking the child or disposing of
the property pending the hearing of
the charges, which will be at the Jan-
uary term of the circuit court. Mrs.
Spell asks to resume her maiden
name, Mrs. Lillian M. Trouth.

PRESIDENT RECEIVES BELGIUM'S PROTEST

SAYS, HOWEVER, IT IS UNWISE
FOR UNITED STATES TO
PASS JUDGEMENT.

(Associated Press)

Washington, D. C., Sept. 16.—The
Belgium commission, protesting
against the alleged German atrocities
was received by President Wilson to-
day. The president thanked the com-
mission for the document and prom-
ised it his thoughtful consideration,
saying, however, that it would be un-
wise for a government which has no
part in the contest to express its final
judgment.

Dr. Ives and family are spending
the day at the Amboy fair.

—They Are in Very Dire
Straights.

Springfield, Ill., Sept. 16.—The pro-
gressive state central committee re-
organized in this city and decided on
a plan of campaign. One feature will
be the bid of anti-Sullivan Democrats
to support Raymond Robins for sena-
tor. Mr. Robins began this movement
when he conferred with leading anti-
Sullivan Democrats in this city.

Medill McCormick announced that
he would not be a candidate for re-
election as chairman of the state com-
mittee. Clarence Funk or Harold
Ickes probably will be chosen. The
committee will also select a tempo-
rary chairman for the state conven-
tion at Champaign Friday. Frank H.
Harris of Champaign and Walter
Clyde Jones of Chicago are mentioned.

PREPARE FOR WORK AT THE ASSOCIATION

Y. M. C. A. ACTIVITIES WILL
SOON START—PROSPECTUS
TO BE ISSUED.

Preparations for the resumption
of work in all departments of the

ficials, and following an important
meeting of the board of directors,
which will be held tomorrow evening
at 7:30 o'clock the officials will
announce the prospectus of the plans
for the season. It is expected that
increased activity will be shown in
every department of the association
work this year; therefore the an-
nouncement, which will be forthcom-
ing next week, will be of interest to
the members and patrons of the as-
sociation.

Plans for the religious work to be
pursued during the coming winter
will be decided upon at a meeting of
the religious work committee, which
will be held at 7 o'clock this even-

was necessary, and accordingly the
contest will be staged at the Brun-
swick alleys next Tuesday evening.

FELLOWS ST. BRICK OPEN FOR TRAFFIC

CLUB & HUGHES COMPLETED
WORK THERE TODAY—COL-
LEGE AVENUE NEXT.

Hughes & Clubb today completed
their East Fellows street paving con-
tract and the street has been thrown
open for traffic. Considering the ob-
stacles which the contractors have
had to overcome, together with the
most unsatisfactory weather condi-
tions, the contractors have accom-
plished their work most satisfactorily.
Next Monday morning the ex-
cavation of College avenue will be
started by these contractors, prepa-
ratory to the pavement of that
street.

PURCHASE NEW AUTOMOBILE

Blackburn Brothers have purchas-
ed a new Page-Detroit touring car for
their auto livery service, giving them
three automobiles, and it is anticipat-
ed that because of the new vehicle
the business of the firm will increase
greatly. A new car was made neces-
sary by the great increase of patron-
age the firm has received.

TAKE KINKS OUT OF THE PEORIA BRANCH

NORTHWESTERN HAS A FINE
ROADWAY BETWEEN DIXON
AND PEORIA.

ABOUT TO ENTER ST. LOUIS

Railroad Men Think Road is Prepar-
ed to Go Into St. Louis Now—
Have Done Much Work.

According to the announcement of
railroad men practically every grade
of importance on the Southern (Peo-
ria) division of the Northwestern rail-
road has now been eliminated. Three
big construction gangs have been at
work on the branch all summer, and
three big fills with as many deep cuts
have done away with the big grades.
Heavier steel has been laid on the en-
tire division and new hardwood ties
have replaced the old softwood tim-
bers which were put in when the
branch was constructed.

It is further reported among rail-
road men that the Northwestern has
surveyed and is contemplating the
building of a cut-off from Pottstown
to Radnor, which would eliminate sev-
eral big curves, and it is also rumo-
red that arrangements are being made
to construct a line from Broadmoor
to Spring Valley. Such a line would
connect with the company's Spring
Valley-DeKalb line and would give a
closer line from Peoria to Chicago.
All of the improvements have been
made and the rumored extensions
strengthen the belief that the North-
western contemplates entrance to St.
Louis within a short time.

NELSON LAD'S LADY FRIEND A SUICIDE

MISS MARY HOOVER, AGED 20,
TOOK PARIS GREEN AT HER
PARENTS' HOME.

FOUND COVERED WITH HAY

Ill Health Is Said to Be the Probable
Cause of Young Lady's Self
Destruction.

(Special to the Telegraph)
Sterling, Ill., Sept. 16.—Miss Mary
E. Hoover, the 20-year old daughter
of Mr. and Mrs. William Hoover, who
reside north of Sterling in Jordan
township, committed suicide yester-
day by taking a teaspoonful of Paris
Green.

The young lady had been working
about the house apparently in the
best of spirits Tuesday, until about
11 o'clock, when she was missed.

Searched for Her.
Her parents immediately searched
for her, but being unable to find any
trace of the girl at 9 o'clock last even-
ing Presbry's bloodhounds were se-
cured from Rock Falls.

The dogs took a trail straight to
the barn, and although the barn had
been searched before, when the dogs
led the searchers there a second time,
another search was instituted.

Found in Hay.
This time, as the anxious parents
entered the hay mow they heard
moans, and completely covered with
hay, where she had evidently worked
her way, they found the girl.

Under the attention of physicians
she rallied sufficiently to tell what
she had done, but she refused to give
any reason, and she passed away at
4:30 o'clock this morning without
giving any information other than
that she had taken Paris Green.

Went With Nelson Lad.

The young lady, who was a frail
lass, had been in ill health for some
time. She had been keeping company
with Harry Talmadge of Nelson, Lee
county, but the young man states that
he knows of no reason for her self-
destruction, and it is believed her
suicide was caused by ill health.

GERMANS MAKE DEFENSIVE FIGHT ON ENTIRE LINE

GENERAL STAFF SAYS THERE IS
NO NEED FOR WORRY,
HOWEVER.

RETIRE TO OWN FATHERLAND?

Reports Say the Kaiser's Troops Will
Withdraw From Belgium
and France.

(Associated Press.)
GERMANS ORDERED
TO RETIRE TO GERMANY?

London, Sept. 16.—It is report-
ed from Basel, Switzerland, that the
Germans have been ordered to
retire as far as the bank of the
Rhine, thereby completely
evacuating France, Belgium and
Luxembourg.

ON DEFENSIVE ALL ALONG THE LINE

Paris, Sept. 16.—It was officially
announced this afternoon that the
German army is fighting a defensive
battle along its entire front from
Noyon to a point north of Verdun.

London, Sept. 16.—The second big
battle in northern France since the
southward sweep of the Germans was
checked is apparently in progress to
the north of the River Aisne.

Long Battle Line.

The opposing lines are arrayed
from Argonne Hills through Rethel
to the Chateau Porcien and the prac-
tice camp of Soissons. This would
indicate a battle front of one hundred
and ten miles.

Show Great Skill.

Whether the Germans purpose to
fight to a finish at this position or
plan merely to cover their retreat to
the River Meuse is not clear, but the
German commanders are showing
fully as much skill in their retreat
and in keeping their forces intact as
the allies showed a fortnight ago.

No Decisive Result.

The German rush into France and
their retreat brought no decisive re-
sult and until a pitched battle is
fought on a huge scale and won nei-
ther side can claim that it has secured
more than the opening advantage in
the war game.

On Own Resources.

The debacle in the Austrian armies
means that Germany will have to
more or less rely mainly on herself.

GENERAL STAFF SAYS

GERMANS HAVE CONFIDENCE

Berlin, Sept. 16 (via London) —
The German general staff today an-
nounced that the situation on the
west front was still "favorable" and
says that the French and English at
no place along the whole front have
won a victory. It says the Germans
can look with confidence to the out-
come. No decisive result is expected
for some time.

BRITISH ALSO SAY

POSITION IS FAVORABLE

London, Sept. 16.—An official state-
ment by the press bureau says: "The
general position along the Aisne con-
tinues very favorable. The enemy's
loss has been very heavy. We have
taken two hundred prisoners."

JAPS AEROPLANE

BOMBARDS TSING-TAU.

Tokio, Sept. 16.—The Japanese
aeroplane which dropped bombs on
the German barracks at Tsing-Tau
has returned safely.

The following German official state-
ment by Marconi wireless has been
received at London: "The right
wing of the western army is en-
gaged in heavy fighting, the result
of which at present has not been de-
cided. An attempt on the part of

CHANCE MAY BE NEW WHITE SOX MANAGER

NEW YORK REPORT SAYS HE WILL HEAD COMISKY'S TEAM NEXT YEAR.

QUIT NEW YORK TUESDAY

Was Paid in Full for the Season of 1914 and Made a Free Agent.

New York, Sept. 15.—A report that cannot be verified here, declares that Frank Chance, who retired from the management of the Yankees at the conclusion of today's game, has been offered the management of the Chicago White Sox for next season. Mr. Chance will not discuss the proposition except to admit that he has received an offer from "another club." Whether that club is in the American National, Federal, Pacific Coast or Imperial Valley league the P. L. will not say, on the ground that it is not his secret. He also declines to say whether he will consider the offer.

Chance severed his connection with the New York club today and left tonight on an automobile trip west.

Chance Made Free Agent.

The terms by which Chance quits the Yankee management made him a free agent as he is understood to have received his salary in full for the remainder of this season and an unconditional release in exchange for the surrender of his contract with the New York club, which has another year to run at a reliably reported salary of \$20,000 per annum.

It is understood that Jack Dunn of the Baltimore International league will be manager next season. In the meanwhile Roger Peckinpaugh has been placed in charge of the team temporarily.

The only other club in the American league that can afford Chance is the Chicago club. There are two clubs in the National league that can afford him, but one of them has McGraw as manager and the other had Chance as pilot before. The Federal league avowedly can't afford to pay Chance his price.

Comiskey Doesn't Blame Callahan

It has been an open secret that President Comiskey has not been satisfied with the showing of the White Sox. In spite of spending a fortune of money each year the team has stood still or dropped back a little each season. The Old Roman, however, is satisfied with Manager Callahan and if reports are to be believed has no thought of parting company with his present manager.

It may be the Old Roman will hunt up a new scout, which was the diagnosis Chance made of the Yankee sickness, but Chance is too valuable a man for scouting purposes. What other club in the American or National league may be considering a plunge on Frank Chance for 1915 is a mystery. Most of them are loaded up to the gunwale already with war time salaries and the prospect is none too bright for more than war time revenues.

BASKET BALL WITH STERLING

The schedule of the Sterling high school basketball team shows that two games are to be played with the Dixon high school organization, one at Sterling Jan. 29, and the other at Dixon March 25.

Officer, Taken Ill at Camp, Dies. Danville, Ill., Sept. 16.—Zeloste M. Kraft, corporal in Company I, Fifth regiment, who became ill at Camp Lincoln two weeks ago, when the Fifth was encamped at Springfield, is dead. The camp was held blameless, however, as a postmortem disclosed acute kidney trouble. Kraft will be buried with military honors Thursday.

DUM-DUM BULLET IS A DEADLY MISSILE

IS ALMOST CERTAIN TO CAUSE DEATH TO THE PERSON IT STRIKES.

LEAD SPREADS, CAUSING JAGGED, FEARFUL WOUND

Its Use in Warfare is Barred by An Agreement of All Civilized Nations.

Persons who have been reading each day of progress of the great war in Europe have observed that the Germans are accusing their enemies of using dum-dum bullets, while a like accusation has been brought against the Kaiser's men by the French, English and Belgians. The German emperor a few days ago sent a communication to President Woodrow Wilson protesting, in the name of humanity, against the alleged use of the dum-dum bullets by Germany's foes. He even went so far as to say the French government was manufacturing almost countless thousands of these bullets by means of machinery especially designed for that purpose.

Comparatively few really know what the dum-dum bullet is. The dum-dum, named after Dum-dum, in India, where bullets are made for the Indian army and where this particular kind of bullet seems first to have been used, are of two kinds. The one most commonly used is the soft-nosed or mushroom bullet; the other is hollowed to its pointed end. In either case the object sought is to make the lead missile spread or fly into fragments when it strikes the human body, making a jagged and fearful wound and usually causing death. A wound made by such a bullet usually costs the victim his life, whereas soldiers, in the present war, have been known to receive nearly a dozen wounds from high powered rifles and to survive their injuries because the bullets were fired at such a terrific speed that they cut only a very small and perfectly clean wound.

The use of dum-dum bullets has been noted in every war since their invention. In the Russo-Japanese war the Japanese repeatedly protested to other nations that the czar's troops were using the deadly soft-nosed bullets, and in the wars of Spain against Cuba and the United States the Spaniards were accused of using them.

Barred by Civilized Nations.

So deadly are the missiles known to be that for many years, by international agreement, their use in warfare has been prohibited.

It is an easy matter to convert certain makes of bullets not barred by the civilized nations into the dum-dum kind. The ammunition for the Springfield rifle, used for many years by the Illinois National Guard, can be so converted by simply cutting a slot across the head of the bullets. Thus altered they are as deadly as any ever used by a sepoy. It is said by those that have used them that one of these will bring down any known game, no matter how large or powerful, so very deadly is the effect of the scattered lead as it enters the body of the victim.

The mushroom bullet has no steel casing for the leaden missile. This according to dispatches, is the kind being used in the European war. The other kind of dum-dum, made by splitting the head of the regulation bullet, is even more deadly, as the steel spreads with the lead and a terrible wound is the result. One of the bullets is known to have nearly torn the arm off a soldier. There was another barbarous method employed in earlier wars, and that was to extract the bullet from the shell, insert poison behind it, and then replace the bullet. This meant sure death to the person shot.

EUROPE SENT GREAT AMOUNTS TO AMERICA

DEPARTMENT OF COMMERCE AT WASHINGTON TELLS OF THE VARIOUS IMPORTS.

NEARLY ALL SHUT OFF NOW

Great Quantities of Goods Worth Many Millions of Dollars Formerly Sent to This Country.

Washington, D. C., Sept. 15.—Europe, which in recent years has supplied about 70 per cent of the manufactured goods imported into the United States, showed, in the fiscal year which ended June 30, 1914, a smaller gain in its contributions of general merchandise than any other grand division except Africa. According to official figures of the Department of Commerce, imports from Europe were three million dollars greater than in the previous year, compared with a gain of five million in imports from South America, five million in those from Oceania, ten million in those from Asia, 65 million in those from North America and a loss of seven million in those from Africa. France, Italy, Germany, Spain and Switzerland showed gains, while the United Kingdom, the Netherlands, and Russia were among the important European countries the imports from which decreased during the past year.

The character of goods imported from Europe has been the subject of so many inquiries reaching the Bureau of Foreign and Domestic Commerce that the following summarization has been prepared by that office showing the principal manufacturing materials for its chief supply of which the United States has usually looked to Europe. Considering the seven countries which contribute 85 per cent by value of all goods imported from Europe, it is found that they furnished last year the classes of merchandise specified in each case. Certain of the articles mentioned below as imported from Europe are derived from other parts of the world, this being true of tobacco, spices and diamonds from the Dutch and other East Indies, diamonds from South Africa, wool from New Zealand, Australia, Asia and South America, rubber from the East Indies and other tropical countries, and tea from India, China and Japan.

ENGLAND: Imports from England included nearly 20 million dollars' worth of cotton goods.

So many yards of cloth, 5 million pounds of yarn, and 9 million dollars' worth of lace and edgings; 9 million dollars' worth of chemicals, among which were 34 million pounds of bleaching powder, 37 million pounds of ammonium sulphate, 10 million pounds of glycerin, 2 million dollars' worth of coal tar products, and considerable amounts of acids, gums and opium; 48 million dollars' worth of iron and steel, such as cutlery, machinery, etc.; 53 million pounds of block tin; 75 million pounds of wool, 14 million pounds of tea, and miscellaneous manufactures, such as chinaware, linens, gloves, linoleum, precious stones and silk and worsted goods.

GERMANY is our chief source for imported chemicals, its contributions thereof exceeding 20 million dollars' value. Last year's imports included coal tar preparations, alizarin, aniline salts, indigo, potash, quinone and other drugs to the value of 21 3/4 millions. Other important articles were 13 million dollars' worth of cotton goods, 1 million tons of potash salts, used very largely as fertilizers; 150 million pounds of wood pulp, 35 million pounds of palm and palm kernel oil, 8 million dollars' worth of toys, and numerous manufactures, including machinery, cutlery, antifriction mallees, gloves, silks, paper goods, and clover

These are the generals of the great German armies bent on the destruction of Paris.

General von Buelow was recently a victor in an important contest on French soil in which he was said to have taken more than 430 guns from the French and many prisoners. He led the army of the north which swung toward Ostend after Liege was taken.

Grand Duke Albrecht of Bavaria was in command of the troops which took Namur, the supposedly impregnable fortress, after three days of attack. Prince Rupprecht has led an army which centered about Luxembourg, though little has been heard of him recently.

Crown Prince Frederick William had another further south which is

believed to have been advancing steadily westward to converge with the armies from the north marching on Paris.

General von Heeringen is the former minister of war now in command of the German army which has been trying to drive the French from lower Alsace. He was an important figure at the time of the Krupp scandals a year ago, and his name was so freely mentioned that he ultimately resigned. Since then he seems to have regained his laurels by his successes against the French.

There have been reports for the past few days that Kaiser Wilhelm himself was with the Crown Prince, and would remain with the army until the final battle before Paris was begun.

"CASCARETS" RELIEVE SICK, SOUR STOMACH

MOVE ACIDS, GASES AND CLOGGED WASTE FROM LIVER AND BOWELS.

Get a 10 cent box now.

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse the stomach, remove the sour, undigested and fermented food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. Then your stomach trouble is ended. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing too.

Lawyers, bring us your brief and abstract work. We are well equipped to handle such work on short notice, having recently added an other Linotype to our equipment.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Grandma's recipe of Sage Tea and Sulphur darkens so naturally that nobody can tell.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.

Eisenberg-Cline.

To a large proportion of Ashton society this week possesses much romantic interest inasmuch as it brings the wedding of Miss Lena Eisenberg and Mr. Albert Cline which takes place Thursday at high noon at the beautiful new residence of Mr. and Mrs. John J. Eisenberg in Ashton. The service will be performed by the Rev. S. W. Theiss, pastor of the United Evangelical church at Ashton, who has guided the spiritual life of the principals since childhood. It will be a small wedding with only the immediate relatives and friends present and all its details will be marked by a fastidiousness and tasteful simplicity. The ring service will be used.

The house will be artistically decorated in autumn leaves and cut flowers. The living room is to be used for the ceremony and here in an alcove will be beautifully decorated in green and white, with autumn leaves and white asters, and banked with leaves to give the floral touch to the ceremony arbor.

At the hour appointed Mrs. Roland Eisenberg, sister-in-law of the bride, at the piano will render Mendelssohn's wedding march and the bridal party will take their places for the ceremony. During the service and speaking of the vows the strains of the Bridal chorus from Lohengrin will be softly heard. The young couple will have as their only attendant Miss Ida Eisenberg, sister of the bride, as maid of honor.

The bridal robe is a simple, dainty, creation of white crepe meteor made in round length. Her flowers will be a round bouquet of bride's roses. The maid of honor will wear yellow crepe silk and will carry a bouquet of Sunburst roses. The groom will wear conventional black.

After the felicitations have been showered on the happy couple a wedding dinner will be served, in a dining room beautifully decorated in pink and white, carnations, asters, and smilax being used in great profusion. The four course dinner will be served by Mrs. Adam Krug of Ashton as caterer assisted by Mrs. George Boelkner of Chicago a friend of the family and Miss Nellie Wolford of Ashton, a cousin of the groom.

A wedding trip will be taken to the old home of the groom in Maryland and they will later visit at Williamsport, Hagerstown and Niagara Falls.

ARMY OF ALLIES IS AT REIMS

(Continued from page 1)

There is a rumor that Maubeuge has been relieved and that 12,000 Germans have been captured. If this is so they will have to retreat through the narrow gap between Maubeuge and Verdun.

In official circles at Constantinople it is reported that Turkey will not support Germany and has decided to remain neutral. A warning from Great Britain that if Turkey participated in the war she would forever be eliminated as an independent nation is said to have led to this decision. In return for her neutrality it is said Turkey will demand that the powers recognize her rights to abrogate the extra-territorial capitulations.

The Paris correspondent of the London Times telegraphs: "The German armies are retreating fast but in good order, judging by the latest news."

Bordeaux, Sept. 15.—The French and the German armies are taking breath preparatory to the next great battle on French soil.

If the Germans are able to take up a strong position along the Aisne the new conflict is expected at the end of this week. On the other hand, it is felt that the invaders may draw off through Stenay on the Meuse into Luxembourg.

There is increasing evidence that the Germans are demoralized. One general of an artillery division tried to commit suicide when taken prisoner by the French. Masses of every kind of material have been abandoned by the Germans, which shows that the retreat is being kept up. The French are sending forward fresh troops in large numbers.

The retreat of the Germans by the Stenay route is, however, very risky, and they may prefer to stand and face another fight.

Paris, Sept. 15.—The following official communique was issued at 11:14 p. m.:

"1.—On our left wing our forces are in close contact with the enemy on the entire front north of the Aisne and to the west and north of Rheims."

"2.—In the center our advance between the Argonne and the Meuse continues."

"It is absolutely untrue that the forts of Verdun are being besieged and bombarded by the army commanded by the German crown prince as has been announced by the semi-official Wolff agency. This city has never been attacked. The only fort which has been attacked by this enemy in this district is Troyon, which does not belong to the defense of Verdun but to that of the Meuse district. Troyon has been bombarded on several occasions, but these repeated attacks have been unsuccessful and the fort has now been relieved."

Retiring Toward Metz.

London, Sept. 15.—Swift upon reports of the surrender of General Alexander von Kluck, commander of the German right wing army, with 25,000 men, the Kaiser began the task of reassembling his shattered forces under the shadow of the fortress of Metz, Germany, to which point his left wing army was driven by the victorious French.

Crown Prince Frederick William, upon whom the Kaiser depended to retrieve the general German route by breaking the French center, was again defeated and also retreated northeast toward Metz. The surrender of General Von Kluck is reported in a dispatch from Dieppe.

Crown Prince Driven Back.

Paris, Sept. 15.—French troops have driven back the German crown prince from the new battle line he formed in the southern part of the Argonne. His forces are in rapid retreat.

The German right wing army gave battle north of the River Aisne, while the right of the German center took up a strong position north of Rheims and Chalons.

The text of an official statement says:

"On our left wing during yesterday the Germans offered resistance on the north side of the River Aisne along a line marked by the forest of L'Angle and Craonne, twelve miles southeast of Laon."

Center North of Reims.

"In the center the German line of resistance was located yesterday to the north of Reims and of Chalons. In order to reach Vienne, in the western section of the Argonne region, the forces of the enemy which were in the southern part of the Argonne hastened their movement of retreat. In passing between the Argonne region and the River Meuse their front yesterday, at the end of the day, extended from Varennes to Consenvoye."

"On our right wing the Germans were doubling back on Etain (in France) and on Metz, Delme and Chateau Salines (all in Lorraine)."

"In the Vosges and in Alsace the situation is unchanged. In Belgium the Belgian army is continuing to operate around Antwerp, causing serious losses to the enemy."

WHEN WARS WILL CEASE.

When the human heart is purged of all passions, when human nature is wholly changed, when men cease to be citizens or subjects of nations and become world citizens, when no man's heart beats faster at the sight of the flag that is to him a symbol of nationality and no child is taught to sing "My Country, 'Tis of Thee" or its equivalent in any tongue—then, and not until then, wars will cease.—New York Herald.

In other words, never. The New York editor is cynical, adds the Clinton Herald.

When the human heart is purged of greed and jealousy, and the mind of suspicious harborings, when the nobility of human nature is recognized, when men glory in national righteousness and generosity, when all men's hearts beat faster at the flag as a symbol of freedom and justice, when children put all the fervor of their nature into "My Country, 'Tis of Thee," * * * Land of the NOBLE FREE," then wars will cease.

The United States has already passed beyond the stage of aggressive warfare. It is impossible to conceive of an American war save to resist invasion or relieve oppression. To say that no other nation can reach the same position is to indulge in in absurd self-exaltation.

Wars are not over, nor will this in Europe be the last. But the way to peace is clear, and the United States is leading on that pathway, with a taper that burns clear and steady.

THE STRAIGHT REPUBLICAN TICKET.

Look at the list of candidates printed daily at the top of this column. They are the republican candidates for office at the fall election in Illinois. Every man on the ticket is deserving of your consideration and your vote. If you want to have republicanism and prosperity and good government again, vote the straight republican ticket November third.

ASSISTANT DEMOCRATS.

Back in Maine the progressives accomplished a great deal at the election held this week. They elected a democratic governor, even if they did fall off two-thirds in their vote while the republican total more than doubled. And still they try to evade the fact that they are "Assistant Democrats."

The Book Reviewer

By WALT MASON

He views the pile of printed junk, in covers made of cloth or leather, that he must read to earn the plunk that keeps his frame and soul together; and, as he views, his spirits sink, his mind grows bluer yet and bluer. "The idiots who wade in ink!" exclaims the heartsick book reviewer. The same old junk, in gorgeous lids, the same hack authors and their brothers! The writers new, who make their bids for fame by imitating others; the melodrama raw and red, the maiden and her vile pursuer. "Won't some one cure my aching head?" exclaims the wearied book reviewer. The book of verse that breaks the heart, with halting lines and doleful pitches; the novel, resolutely smart, that treats of idle rich and riches; the Kauffman type of ripe romance, that takes us through the slum and sewer, and makes white slaves of palsied aunts—"God save us!" cries the book reviewer. And there is always Oppenheim, whose diplomats and dukes are dismal, and Austin Freeman, who in crime, is sounding depths that are abysmal; the tired reviewer scans the heap for something better, stronger, newer, and scans in vain, then goes to sleep—his job has killed the book reviewer.

FRENCH BAYONET
GERMAN SOLDIERS

MAKE SURE OF THEIR DEATH
AFTER FINDING THEM OVER-
COME FROM GAS.

London, Sept. 15.—Geoffrey Young correspondent of the Daily News, describes a visit today to Senlis, which was evacuated by the Germans Sunday. He writes:

"Senlis, an exquisite town of open stone work, framed amid scenes of romantic beauty, is now a wasted ruins. Every house is a shell, burnt out and like a skeleton staring at the sky, a victim of fire and pillage.

"The French soldiers held these houses to the last with their effective fire, and then for ten days, the Germans held the town, destroying it for amusement.

"The mayor and two elderly bargesses, Simond and Barberre, were placed in front of the hotel and shot for practice. They were not allowed to speak to their wives and children, who stood by proud of the fact that the general and his aid had signed their names in large letters in the hotel book.

Fate of Two Maidservants.

"Every room in the largest hotel was forced open with pistols. Two old maidservants, who stayed to look after the great house, now a smoking shell, were abused and injured. One of them is now wandering through the streets of the village, half insane, weeping at the thought of 800 bottles of champagne the Germans took.

"They would have no other wine. They looted this from the cellars. Double the force of Germans and you would not be able to account for the litter of glass, ankle deep, which covers the streets.

"The Germans, though, were finally caught. The zouaves, who were pouring through the country, arrived in hundreds in taxicabs between 4 and 5 in the morning. One officer, who could not find his regiment, was shot and the rest decamped.

No Food Left.

"There is not a crust left in the neighboring villages. At Mont Levis the few surviving men laughed at the idea of bread. You will hear with less revolt of horror that, earlier in the day I passed some 240 Prussians dead on one farm. They were black and were not buried, because there were not enough peasants to bury them. They had been killed by the fumes of shells, possibly, but had been bayoneted for double security.

"It would be easy to amplify the utter distraction of the towns, the stories of the insolence of the invading hordes. The inhabitants, poor folk, are taking it with the quiet, deep indignation of civilized people."

PRESIDENT'S BAND
TO PLAY IN DIXON

FAMOUS UNITED STATES MARINE
BAND TO GIVE CONCERT MON-
DAY EVENING, OCT. 5.

The United States Marine Band, known all over this continent as "The President's Own," has signed contracts to give a grand concert in Dixon, Illinois, on the evening of October 5, commencing at 7:45, in the big amphitheatre at Assembly Park. The band, which is the finest and most noted musical organization in America and the peer of the great military bands of Europe, is composed of sixty-five members. It is a government institution and has been for considerably more than a century. The musicians are gathered from all over the world at great expense to the government and trained and paid by Uncle Sam. This is the second trip that the band has ever been allowed to take. It was first allowed to leave Washington by President Taft during his administration and this time President Wilson has graciously allowed the band to go where citizens of the United States who cannot come to Washington may hear it. The tickets are 50 cents, and 25 cents for children. Autos admitted to the grounds free. The amphitheatre seats 5,000 people comfortably. It is the chance of a lifetime to hear a truly wonderful band. The price has been decided by the Dixon business men and was placed low enough for all to reach so that the greatest good might be done to the greatest number. Go to Dixon on Monday, October 5, and listen to the sweet, haunting, appealing music of the United States Marine Band, and you will be able to say that no one has ever heard more beautiful music than you have.

This is an opportunity for all of Northern Illinois; an opportunity that comes but once in a lifetime. Have you ever heard the United States Marine Band play at any of the official receptions which are held in the White House during the winter months, Washington's social season? If so, you will be more than delighted to know that this magnificent military organization has been granted permission by the President of the United States, through the personal solicitation of Senators and Representatives in Congress, to make a grand tour of the Southern and Middle Western States. This is the fourth tour in its history.

It is no wonder that Senators and Representatives, who have been so favored as to hear this great military band discoursing its superb music to the men and women of all nations, should be desirous that their constituents be given the privilege of hearing the world-famed band. For this band is their band, as it is the property of every American citizen, the same as the Government of the United States is the Government of the people individually as well as collectively.

Consequently, when the United States Marine Band comes to Dixon on October 5th, in the evening, and you sit and listen to its wonderful music, the fact of knowing it to be your band as well as "The President's Own," as it is commonly called, will bring with it that pride of possession which we all feel in the ownership of something that cannot be surpassed.

FAMILY THEATRE

Cole, Russel & Davis close their three nights' engagement at the Family this evening and will undoubtedly be greeted with the usual large audiences. Their act is lively, full of snap and has a laugh from start to finish. The trio are clever dancers and singers and their performances have been greatly enjoyed all week.

Pictures tonight are His Wife and His Work, in two reels; The Basket Habit and The Lie. The subjects have been booked with special care and a very enjoyable evening's entertainment awaits the Family patrons.

PRINCESS THEATRE.

On Thursday night the eleventh episode of the "Million Dollar Mystery" will be shown at the Princess theatre. Jones was greatly overjoyed over the finding of Florence but when the news of her safety reached him, he was overjoyed. Norton and Florence boarded a train for home and were surprised to find Olga, Vroom and other of the Black Hundred on the train. There was a terrible rumbling and a tilting of the coaches, a dull heavy grinding—a terrible impact and the coaches are piled up in wreckage. Olga, Florence and Norton lay unconscious, but Vroom was unharmed. He gathered Florence into his arms and carried her along the road where he meets a farmer and gets a horse and buggy. Thus equipped Vroom has the heiress in the hut where the other conspirators are. Arousing from unconsciousness Norton fails to locate Florence and he telegraphs to Jones the butler. On horse back, Norton sets out for the deserted house where he thinks Florence is, but he is ambushed and after a terrific fight he is made a prisoner. Florence was given a length of time to divulge the hiding place of the million on pain of her lover's death. The time being up Norton is tied to the rails but Florence severs her bonds and reaches the railway in time to throw the switch, saving Norton from death beneath the wheels.

SARAH PADDEN

"The Little Shepherd of Bargain Row" opened the legitimate season at the Dixon opera house last night to a packed house. The play, without exaggeration, is one of the very best that has been produced in Dixon in years. Sarah Padden, with able support from an excellent group of artists, in the part of Nora Blake, was instantly welcomed into the hearts of the Dixon audience, which has come to love her through seeing her in "Kindling" and "The Third Degree." Sarah Padden is a wonderful actress and her place is in the biggest playhouse in the land. If every play could be as good as the one produced last evening the dreams of the theatre going public would be realized. Manager Simpson is to be commended on his enterprise.

JAP PAPER PRAISES
PRESIDENT WILSON

COPY OF JOURNAL RECEIVED IN
CHICAGO COMMENDS ACTION
OF UNITED STATES.

CHINESE PROBLEM FEARED

Japanese People Are Being Very Kind to German Residents Within Their Borders.

Praise for President Wilson and the American press is contained in an editorial appearing in the Jiji Shimpou of Tokio dated Aug. 27, which was received at the Japanese consulate in Chicago yesterday.

"We are gratified to learn that the American press has resumed its usual attitude of fair play since Mr. Wilson issued his message to the people," the editorial says. "We appreciate the sincerity of the American government which led to the publication of the message warning the people to keep neutrality even in the discussion of the situation."

In explaining Japan's policy at present the editor points out that if Japan seizes Kiau-Chau it will lead the way to similar seizures by European powers, thus disturbing the balance of power in the far east.

Japan's Anxiety Cited.

"That is the state of affair we feel greatest anxiety for," the article concludes. "It is simply to check such a tendency that we have always done our best to preserve the integrity of China. Why, then, should we take such a foolish step ourselves, only to open the way to the partition of China, which would be disastrous to Japan?"

A German named Schrader, many years a resident of Tokio, where he acted as agent for a German business house, writes as follows in an open letter published in a number of the Japanese papers of Aug. 28:

"I and all the German residents in this country sincerely appreciate the cordial and generous spirit which found expression in the official instructions given out by Count Okuma, the premier and the minister for home affairs, and by Mr. Kikui, the minister for education. I am convinced that it is not presumptuous on my part to make such a statement in the name of the German residents of Japan."

Police Protect Germans

"The police department is taking great care for the protection of the German residents. A policeman who came to my house today politely asked me how things are getting along, and I answered that nothing had happened which we feel badly about, and told him that I take a walk on the streets as I used to do, without feeling the least anxiety. I added that war will be brought to an end within a few months, when Japan and Germany can resume their friendly relations."

Mr. Schrader also expresses the thanks of the Germans in Japan for the kind treatment accorded them by the newspapers, which warned the populous from anti-German demonstrations.

"I want to advise all foreigners here," he concludes, "to follow the example of the Japanese people and to act as gentlemen even when discussing the situation."

AUTUMN IDEAL TIME TO RAISE CHICKS

There are several advantages in favor of beginners starting in the poultry business in the autumn, says the St. Louis Post Dispatch. It is a good time to select stock, since there is a great number to choose from and since breeding stock may also be purchased much more reasonably in the early autumn than later on toward the beginning of the breeding season.

Furthermore, procuring the birds at this time of year will enable one to learn some valuable lessons on poultry raising by the time winter arrives and before the breeding season opens up. Most important of all, perhaps is the fact that there will be eggs for the table through the winter which means a lot of satisfaction and encouragement to the beginner. Very often encouragement is the thin ghost needed by the beginner when the first knotty problems of poultry raising appear.

The autumn is also a better time than late winter or spring to get in readiness, as the building of houses, pens and fences. The weather is more favorable as a rule in the autumn and there is more time to put to such work. Buy a few fowls and learn the mysteries of the poultry raising game as you go along, with the risk reduced to a minimum. The best advice that could be given a beginner without experience is to go slow at the start. Put up moderately equipment and begin with just a few birds. Then spread out as you learn and become confident.

POSITION OF SULTAN BRINGS U. S. PROTEST

Turkey, However, Does Not Intend to Recede.

Constantinople, via Rome, Sept. 16.—It is reported here that that United States has presented a protest, couched in the most vigorous terms, against the abolition by the Turkish government of the privilege of the capitulations for foreign subjects. It is plain, however, that Turkey does not intend to recede a single iota from her announced position. She has taken advantage of the present general European war to declare her independence on all foreign pressure, and believes that she will be permitted to get away with it.

The government has prepared a law establishing as a national holiday the anniversary of the promulgation of the decree. It is also stated that a decree is to issue which will transform all foreign schools within the limits of Turkey into Turkish institutions. This is to become effective Oct. 1. At that time, too, the new scale of Turkish duties will go into effect.

It is announced that the following articles will be subject to heavy duties: Coffee, sugar, kerosene, alcohol, matches, cigarette papers and playing cards.

Frank Chance Quits the Yanks. New York, Sept. 16.—Frank Chance has resigned the management of the New York Highlanders. President Farrell decided to give Chance a month's salary and cancel the contract for next year.

Eastern Roads Ask Rehearing. Washington, Sept. 16.—The eastern railways formally petitioned the interstate commerce commission for a rehearing in the eastern advance rate case, and to permit them to put into effect the 5 per cent increase which the commission recently denied.
